IMPACT OF CHILDCARE ON WORKFORCE
Jessica Thomasson and Kay Larson
Department of Human Services

Workforce element
• Childcare needs affect thousands of working families across the state.
  ➢ 73% parents in workforce – 44,000 ND households who have children younger than 5 years of age, likely have at least some need for childcare.
  ➢ 1 in 10 eligible children (26,000) ages 13 and younger live in households where parents’ earnings are less than 200% of federal poverty level
  ➢ 1,360+ approved childcare providers are licensed to serve 39,478.
  ➢ 20% of the state’s population lives in a county that was considered a childcare desert in 2020.

Eliminating Childcare as a Barrier to Work Requires a Comprehensive Approach
• Affordability
• Quality
• Access

Childcare assistance can help working families with childcare costs
• The Childcare Assistance Program (CCAP) helps pay a portion of the cost of childcare for working families
  ➢ 2,580 average number of children served per month
  ➢ $16.3 million is given as support to families
  ➢ $523 is an average payment per child per month
Removing Childcare as a Barrier to Workforce will take a Bold and Comprehensive Strategy
- **Quality**
- **Affordability**
- **Access**
  - **Childcare Assistance** – increase investment in Childcare Assistance Programs to help make childcare more affordable for working families who earn modest income
  - **Best in Class** – increase number of grant funded Best in Class programs serving children in the year before they enter kindergarten
  - **ND3** – Build a public private partnership that creates a shared funding model to help with childcare costs for working parents of young children
  - **Shared Services** – Facilitate greater business operating expertise and support to childcare operators to help assure business sustainability

Discussion:
- Co op model to help with childcare assistance for rural areas.
- Access piece could be expanded on, flex pace program for childcare centers – best practices across the state
- Reduced interest loans, sometimes childcare does not have the capacity to payback the loans.
- How to help incentivize and encourage a sustainable operation for childcare, economics make it tough for making ends meet.
- This creates an opportunity to create a small workgroup with the RB and R&R subcommittees to support the work of DHS in this area.

**LOCAL WORKFORCE & CHILDCARE**
Karlee Griffin, City of Carrington
Laurie Dietz, Chamber of Commerce

Karlee talked about the major employers, main goals, and current economic projects for the City of Carrington. Laurie talked about the challenges Carrington faces such as affordable housing, shortage of workforce and the need for daycare providers.

**WIOA/NGA/WORKFORCE GRANT UPDATE**
Katie Ralston Howe
Phil Davis

**Emergency Dislocated Worker**
Awarded $510 thousand over the last two years with eighty individuals that were dislocated due to COVID were sent to training in various tech areas. The grant is wrapping up with $8,000 left to spend for training.
Unified State Plan
The WIOA requires each WDC to develop and submit a comprehensive four-year plan that needs to be updated every 2 years. The plan recently went through updating and had a public comment period for two weeks, that just closed. The plan will be uploaded to the Federal Department of Labor portal soon. The next plan will be updated in 2024.

NGA
North Dakota and five other states were selected for the second phase of the NGA’s Workforce Innovation Network (NGA WIN) last year in November. The states will deploy cross-agency teams to identify and implement strategies that advance digital skill development for employees to participate in work, education, or training. The $100 thousand dollar grant will be used to hire a contractor. The focus will be on minority populations and rural communities that do not have access to training.

Team members for the NGA WIN, include NGA technical assistants, Katie Ralston, Commerce Dept.; Phil Davis, Job Service ND; Maria Nest, Governor’s Office; Sara Mitzel, DPI; and Taya Spelhaug, Microsoft. At the second quarter WDC June meeting, more conversation and more comprehensive reporting will be brought forward, along with the legislative recommendation that should be discussed regarding funding or policy changes.

OVERVIEW OF RECOMMENDATION PROCESS
Katie Ralston Howe

I. Guiding Principles
   • Statewide Impact
   • Encourage private sector partnership
   • Coordinate and maximize federal resources
   • Scalable solutions
   • Balance current and future needs
   • Consider Priorities vs. Programs.

Guiding Question – what makes the most sense to put resources behind right now?

II. Considerations
   • Build on work completed to date where possible
   • Recommend actionable strategies – both short and long term.

III. Metrics
   • Determine the metrics that will be used to measure success
   • How will we know these recommendations are successful?

IV. Partners and Process
   • Engage early
   • Collaborate
   • Work to understand what’s possible/allowable
   • Discuss process for achievement.

GOAL
   • 5-10 recommendations total
   • Endorsements – what makes sense for the WDC to lead vs support.
   • Task force for childcare and a place for the WDC to endorse their work, solutions they may develop.
   • Comprehensive, including policy changes and/or funding requests
   • Appropriate agencies must be on board with funding requests as these will impact their budgets, staff to administer funds.

TIMELINE
March 3
Preliminary recommendations
Invite feedback

June 2
